County Policy Guidance

Waste Tire Management

- Residential drop-off locations and quantity limits
- Process to verify residency
- Location for commercial trailer-load quantities
- Process to verify business licensure and zoning
- Tipping fees for undocumented tires (up to \$150/ton)
- Fee exemptions and documentation required
- Process for verifying haulers/checking manifests
- County participation in enforcement and clean-up

Tire Tipping Fees

Retailers	None with documentation \$1.94 per DOT numbered tire remitted to the SC DOR
Residents	None with documentation of in-state purchase and payment of \$2 tire fee. May also establish policy to waive documentation for limited numbers accepted from residents.
Fleets	None with documentation of in-state purchase and payment of \$2 tire fee. Counties may require fleets to provide documentation for proof of in-state purchase.
Off-road tires	County may impose an fee on heavy equipment tires and oversized tires of greater diameter than the largest DOT numbered tire.
Tires generated outside the county	Counties are prohibited only from imposing an additional fee on waste tires generated within the county.
Out-of-State tires	A fee may be charged on waste tires generated outside of South Carolina.
Other undocumented tires	County may charge up to \$1.50 for each tire or up to \$150/ton for waste tires generated in SC for which no fee has been paid.

Waste Tire Manifest

- Requires manifesting for hauling to processing facilities and collection facilities
- Requires signatures by generator, hauler and processing or collection facility
- Documents removal of used tires from the waste tire stream
- Requires haulers to send completed manifest to generator within 30 days

Waste Tire Hauler Registration

- Registration for hauling to processors or collection facilities and temporary clean ups
- Eliminates requirement to list generators – haulers identify service area (by county)
- Requires certification from accepting facility
- Requires list of multiple drivers as applicable
